

Lux-May exclusive Range **DLUX RECESSED DOWNLIGHTS**

DLUXT/F-IP44

High quality, compact Design, horizontal position for lamps TC-D/TC-DEL.

LUMINAIRE HOUSING: Made of polycarbonate. White flange ring made in die-cast aluminium finished with electrostatic powder coating RAL 9010. The ring is attached to the body using a twist at the three points of fixation, which allows fast replacement for lamps even if glass cover or decorative accessories are used.

WIELAND connector is optional.

According to Norm ENEC-10/VDE.

OPTIC: High specular faceted polished reflector made of pure aluminium, silver coated by vapour deposition.

Reflector is precision formed to render very high light efficiency.

DLUXT/F-IP44: Transparent glass included

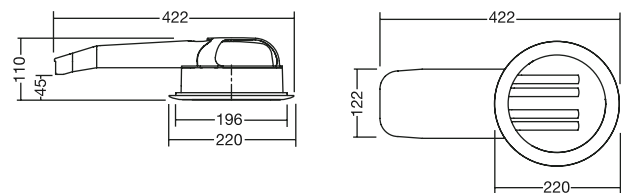

* This range "DLUX" is only supplied with electronic ballasts.

Possibility of conector wieland or similar
