

exclusive Range **DLUX RECESSED DOWNLIGHTS** *Lux-May*

DGLUX

Compact Design, horizontal position for lamps TC-D/TC-DEL.

A decorative glass disk attached to the flange ring fastened by inox screws for embellishment and architectural accent.

LUMINAIRE HOUSING: Made of polycarbonate. White flange ring made in die-cast aluminium finished with electrostatic powder coating RAL 9010. The ring is attached to the body using a twist at the three points of fixation, which allows fast replacement for lamps even if glass cover or decorative accessories are used.

WIELAND connector is optional. According to Norm ENEC-10/VDE.

OPTIC: High specular polished reflector made of pure aluminium, silver coated by vapour deposition. Reflector is precision formed to render very high light efficiency.

* This range "DLUX" is only supplied with electronic ballasts.

Possibility of connector wieland or similar
